

Building a Smarter, more profitable future

Finding & recruiting your own energy team with the diverse range of skills and experience needed can be timely and expensive.

That's why *Hawley Energy* have consolidated all their services under a simple new service; *Virtual Energy Manager*.

We'll provide all the skills and experience that you need for a fixed monthly fee that covers as much or as little as you need to compliment your own teams skillsets.

We can reduce your cost, improve resilience and maximising your return on investment in energy efficiency.

Our services are often cash positive so we're confident that you'll see a return on your investment as we build a team around your needs, without any of the stress often associated with building your own internal team and dealing with all the associated costs.

Celebrating our 10th Anniversary

We're celebrating our 10th Anniversary by launching *Baseline Power*. We aim to address all the challenges we've experienced when dealing with brokers over the last decade.

Baseline Power takes a unique approach to the supply of utilities, driving down cost, simplifying the procurement journey and putting you back in control.

Hawley Energy

Helping cut energy waste, reduce carbon, save costs, ensure compliance, & enhance sustainability with expert guidance.

Baseline Power

Redefining energy procurement with transparency, client focus, honest advice, no hidden fees, & strategic contracts that build trust and value.

Virtual Energy Manager

integrates energy audits & procurement, reducing costs, enhancing sustainability, & strengthening brand credibility without in-house overhead.

Whats Included?

The Triple Bottom Line

We help organisations improve their triple bottom line by eliminating energy waste and enhancing sustainability. Through continuous assessments led by accredited Engineers, we'll uncover hidden inefficiencies, reduce carbon emissions and drive data backed decisions that cut costs, supported by streamlined reporting that meets all of your compliance obligations.

Energy Efficiency Advice

Greater financial stability fuels sustained growth, improves operational efficiency, strengthens resilience, optimises resource allocation and enhances longterm business performance.

Compliance Support

Ensure compliance with confidence by working with Hawley Energy. We'll provide regulatory alignment, risk mitigation and sustainability governance, tailored for UK businesses.

Project Management

As Employer's Agent, we ensure transparent energy project oversight, regulatory compliance, cost efficiency and sustainability to safeguard your interests.

Utility Procurement

Introducing Baseline Power for gas, water and electricity procurement. Delivering radical transparency in procurement, empowering you with honest advice, strategic buying and full visibility.
