

**Our clients  
describe us as  
part of their  
team and  
appreciate the  
external  
perspective we  
always bring.**

## **Energy Efficiency Consultants**

## **Who Are We?**

Hawley Energy have been providing energy efficiency consultancy services since 2015 and are celebrating our 10<sup>th</sup> Anniversary in 2025.

We have a proven track record in a wide variety of sectors and pride ourselves on being approachable, honest and transparent in everything we do.

## Our Services

### ◆ Auditing & Reporting

Our work always starts with your data. We use proven methods to turn massive amounts of data into actionable intelligence that you can understand and act upon.

### ◆ Feasibility & Strategy

Once we've considered our starting point, our experienced team can look at options to reduce waste. From behaviour change through to the deployment of renewables.

### ◆ Project Management

Having agreed on a solution, our team will put your project out to tender and make a recommendation based on returns and then represent you throughout the installation process.

We strongly believe in providing perfect service to our customers.

## Our Vision

Empowering businesses to achieve their energy objectives seamlessly, delivering certainty, transparency, and maximum return on investment at every stage.

## Our Mission

To be the UK's premier behind the meter energy consultancy, providing cross sector expertise that optimises efficiency, enhances sustainability, and drives measurable value for commercial clients.

## Our Goal

To establish ourselves as a trusted market leader in energy efficiency, fostering long-term partnerships and delivering innovative solutions that shape the future of commercial energy management.
